### Image performance optimization

```

>
{/* Product Image */}
<div className="flex justify-center">
  {item.productImage && (
    <Image
      src={urlFor(item.productImage)}
      alt={item.title}
      width={400}
      height={400}
      className="rounded-lg object-cover"
    />
  )}
</div>

```

```

{/* Product Image */}
<div className="flex justify-center">
  <Image
    src="/images/shop-hero-2-png-picture-1.png"
    width={443}
    height={685}
    alt="Product Image"
    className="w-auto h-auto max-w-xs md:max-w-sm lg:max-w-md"
  />
</div>
</div>

```
